Dear FCC, Proceeding number 16-41

Gentlemen;

We watch RFDTV on Dish network. We live in Denver, Colorado.

This is our most watched TV station. Most stations show a lot of garbage TV, except for the weather. We love RFDTV because of the wholesome and good family shows. We really like Larry's Country Diner and all the country western shows on Saturday and also during the week.

Please reconsider and keep RFDTV. PLEASE,PLEASE.

Thanking you in advance for your consideration,

Roy and Sandra K. Strick

Mr. Patrick Cottsh,

How could we forget when the Country People came to the USA with the idea to work the land? They worked from early morning hours till late in the evening and made sure that the vegetables, fruits, weeds were taken good care of and that the animals were also taken care of and that they had plenty to eat. They are ready for the next day just to make sure that all plates are well filled with the recolt of these people called "Country People". On Sundays, they prayed and thanked God for the good weather and the good soil. Parts of their lives were spent singing and playing music. They had fantastic talents; they called their music Blue Grass Country Music, the Gospel to give thanks every day of the week, of the month and of the year.

My wife and I wait the whole week for the week-end concert on Channel RFD.TV; we are both seniors. We think that changing the company FIOS to Direct TV was for the simple reason of removing RFD.TV and now we *enjoy* the program with Direct TV.

What is the matter with you? Do you need this channel because of greed and because you want more advertising? Every 10 minutes, you schedule advertising: foreign cars, and more. Think AMERICAN more often!

My wife and I have difficulties to sleep because we keep thinking about losing *our Program*.

Do you realize how many people you are hurting? Could you think about the people who will very much touched because the Gospel and The Country Music will be replaced by music from different religions. Do not forget about the Heart of America. Think about the veterans who will never forget and will not forgive you for your greed. Who could forget Lee Greenwood singing at the White House, in front of thousand of persons and their President: GOD BLESS AMERICA?

Who could forget Alan Jackson when he sang "Where were you when 9/11 happened?".

Those are the singers we love to listened singing. Thousand of musicians, singers show us the love of their ancestors. This is what makes a legend. Forging the trail to give us the love of their country; Loretta Lynn at the White House recently; Hank Williams. Johnny Cash Family, the Carter Family and more.

I thank you for reading my letter. I hope that, what I wrote to you and your company will make us happy and not crying anymore in the middle of the night.

Please have respect for all the stars who passed away making the Country Music what it is today. God bless America.

Thank You
for making an
effort to keep our most
enjoyable TV Channel, on the
air! It's beyond my under-
standing, why anyone wants
to take it off. Why does it
bother them? It must be
something financial, all of
which I wouldn't understand
if it were explained to me.
See Rev "92" in August & depend

I can pick up Bluegrass
programs. It is my

my former TV company
did not carry RFD so I

I will probably switch

drop RFD.

Dear Fed 16-41

Please listen + understand how much good moral program is needed. We listen to many RFD Programs on Dish Network. We don't consider any other network as we don't want to loose RFD.

We don't ~~DOCKET FILE COPY ORIGINAL~~ regular stations as the programming + ads are so horrible. This could be one reason for moral + destructive problems along with Radio stations who carry bad language etc.

RFD have many learning + informative shows as well as good entertainment, up holding family values.

Bringing Urban + Rural together, as we need to

learn from each other as we
depend upon each other.

Please help this type of
network be of a service
to many, without them there
will be less to watch.
They should be able to proceed
with planning & not be in fear
of being dropped.

It is good there are
people who want decentness
and should be considered.

Thank you for your
thoughtfulness.

Dear Sir,

Aren't radio and TV programs supposed to serve the public, to entertain and inform? Independent stations, like KFD and Blue Highways TV, are doing that. I am a senior who lives on an island in Alaska with about 10,000 people. The large commercial stations don't have the music I like or the information I want. There are so few independent stations, why should the big conglomerates be allowed to destroy them? I get good programming on DISH and hope they won't be pressured to drop the independent stations.

Sincerely,

Ginger (Lana) Fortin

To Rural R.F.D. T.V.

Please don't block my favorite station. I'm elderly growing up with the polka and was happy when Molly B came on. I enjoy immensely watching the different bands playing wonderful dance music (polkas etc.) I'm homebound and happy that I could watch my favorite station.

If they cancel the station I feel like cancelling the stations altogether so it better not be cancelled. It was cancelled in Long Island where my children live. I don't like it. Please not cancel here.
